## Names

you should know  
in New York design

When it comes to residential architecture and design, there's no trademark New York style. Classicism. Traditionalism. Modernism. Eclecticism. We embrace them all. But there are local practitioners of each -ism who help define this elusive aesthetic—men and women who add to the collective mosaic by being unrepentantly individual. Here are 50 of them—each a distinctive voice that we can't imagine the New York design conversation without.
